

HLP INDICATORS FOR IDP DURABLE SOLUTIONS

A durable solution is achieved when internally displaced persons no longer have any specific assistance and protection needs that are linked to their displacement and can enjoy their human rights without discrimination on account of their displacement – IASC Framework on Durable Solutions

The Inter-Agency Standing Committee (IASC) Framework on Durable Solutions considers the following three forms of durable solution for the internally displaced:

- 1 Sustainable local re-integration at the place of origin - otherwise referred to as 'return'.
- 2 Sustainable local integration at the place of internal displacement.
- 3 Sustainable local integration or resettlement to another location.
