The survey was designed to increase understanding of the current level of collaboration between Clusters, AoRs and other relevant entities towards four collective outcomes related to the prevention of and response to Explosive Ordnance Child Victims:

1. Prevention: Reduce the number of children who have an accident with an explosive ordnance;
2. Reduce Mortality: Increase the survival rate of child casualties through increased access to first aid, access to safe blood cold chains, trauma surgery, and ongoing medical care;
3. Increase personal capacity of child survivors through rehabilitation, as well as mental health & psycho-social support (MPHSS) of both child survivors and their caregivers;
Are there any data collection mechanisms (national or global) that capture data of relevance to children injured or at risk of being injured by EO?

- Yes: 71%
- No: 20%
- Don't know: 10%

If so, do these data collection mechanisms include any of the following?

1. Displacement Track... 2. ACAPS
2. Child Protection Inf... 4. Country-level Survey f...
3. Child Protection Ne... 7. Incident investigation
19. Information Manag...
8. Landmine Monitor 2. Mechanism IMS+
2. Public Health infor...

Does your organisation, cluster, AoR share data with the system or systems listed above?

- Yes: 63%
- No: 25%
- Don't know: 13%

Is there a shared analysis of data between Clusters and AoRs that informs programs and HRPs?

- Yes: 69%
- No: 25%
- Don't know: 6%

Is there a centralised database containing information on EO child victims, including their needs and services provided?

- Yes: 35%
- No: 35%
- Don't know: 29%

Is there a shared analysis of data between Clusters and AoRs that informs programs and HRPs?

- Yes: 63%
- No: 27%
- Don't know: 10%

Is data disaggregated by all of the following: age, disability, gender, causes and types of injuries?

- Yes: 69%
- No: 25%
- Don't know: 6%

Does your organisation, cluster, AoR share data with the system or systems listed above?

- Yes: 71%
- No: 29%

Which geographic area are you currently working in?

- All: 41 responses
- 28 responses
- 32 responses
- 39 responses
- 40 responses
- 38 responses
- 41 responses
Are there first aid providers in or in the vicinity of locations contaminated by EO? 

- Yes: 50%
- No: 21%
- Don't know: 29%

Do the first aid providers have the necessary equipment and means for a rapid and efficient response? 

- Yes: 47%
- No: 32%
- Don't know: 21%

Do any first response mechanisms incorporate cross-border/regional dimensions (for instance, medical evacuation)? 

- Yes: 17%
- No: 47%
- Don't know: 36%

Is the need for first aid or emergency response to child EO child casualties integrated into strategies of the health cluster, and/or health authorities? 

- Yes: 39%
- No: 15%
- Don't know: 44%

Are there any good practices demonstrating collaboration (national or global level) between the CP/MA AoRs, Health Cluster and possibly other actors in the area of reducing child mortality? 

- Yes: 41%
- No: 44%
- Don't know: 15%

Which geographic area are you currently working in? 

Number of responses: 7

Countries answered yes: 4
Are humanitarian MHPSS programmes inclusive of the needs of EO child survivors?

- Yes: 53%
- No: 18%
- Don't know: 29%

Do the rehabilitation services have the necessary resources to operate and to timely address rehabilitation needs of child EO survivors?

- Yes: 60%
- No: 31%
- Don't know: 9%

Do the rehabilitation services, during beneficiary registration process, collect data on age, gender, causes and types of injuries of persons with disability?

- Yes: 60%
- No: 31%
- Don't know: 9%

Are CP/MA AoRs, the health cluster or other actors collaborate to provide rehabilitation (physical and functional) to meet the needs of child survivors including those living...

- Yes: 54%
- No: 31%
- Don't know: 14%

Do the Standard Operating Procedures in place in rehabilitation facilities include provisions for Case Management and approaches to address protection issues?

- Yes: 11%
- No: 23%
- Don't know: 66%

If yes, is this information shared with other organisations or data collection mechanisms pertaining to EO survivors, and in particular child victims/survivors?

- Yes: 44%
- No: 28%
- Don't know: 28%

Is Mental Health and Psychological Support (MHPSS) available to EO child survivors, affected families and communities?

- Yes: 51%
- No: 29%
- Don't know: 20%

Number of responses: 35

Which geographic area are you currently working in?

- All: 35

Number of responses: 35

Number of responses: 35

Number of responses: 35

Number of responses: 34

Number of responses: 35

Number of responses: 18

Number of responses: 24

Countries answered yes: 8
Case Management & Referrals

Is there a service mapping of all relevant services available?
- Yes: 65% (37 responses)
- No: 19% (11 responses)
- Don't know: 16% (22 responses)

If there is a service mapping, is it shared with EO survivors and indirect victims, including those living in remote areas in accessible format?
- Yes: 45% (11 responses)
- No: 26% (34 responses)
- Don't know: 36% (34 responses)

If there is a functional referral system in place at primary, secondary, and tertiary level healthcare in EO affected regions?
- Yes: 45% (34 responses)
- No: 26% (34 responses)
- Don't know: 36% (34 responses)

Are the Case Management Standard Operating Procedures in place in health facilities to manage protection issues/risks being faced by beneficiaries/patients?
- Yes: 38% (37 responses)
- No: 27% (22 responses)
- Don't know: 35% (22 responses)

Is there an established mechanism (SOP) among service providers to facilitate referrals to services?
- Yes: 43% (24 responses)
- No: 30% (22 responses)
- Don't know: 27% (22 responses)

Is there an established mechanism, SOPs, or guidelines used among service providers on case management procedures?
- Yes: 32% (37 responses)
- No: 24% (37 responses)
- Don't know: 43% (37 responses)

Are there any good practices demonstrating collaboration (national or global level) between the CP/MA AoRs and possibly other actors in the area of case management?
- Yes: 27% (22 responses)
- No: 18% (22 responses)
- Don't know: 53% (22 responses)

Which geographic area are you currently working in?
- All: 6 countries answered yes (11 responses)
### Prevention & Social Inclusion

#### Prevention

1. **Have the CP/MA AoRs and Education Cluster actors come together to jointly develop specific innovative risk education programs concerning children at risk from EO?**
   - Yes: 37%
   - No: 45%
   - Don't know: 18%

2. **Is there an inclusive EO clearance prioritisation process to which various humanitarian clusters and their members contribute?**
   - Yes: 24%
   - No: 46%
   - Don't know: 30%

3. **Are there any "good practices" demonstrating collaboration (national or global level) between the CP/MA AoRs, Education Cluster and possibly other actors in the area of prevention?**
   - Yes: 23%
   - No: 77%

4. **If there is no strategy in place, what steps could the CP/MA AoRs and the Education Cluster take to establish one?**
   - 19 responses from 16 countries

#### Social Inclusion

1. **Does the Education chapter in the HRP explicitly address and budget for the specific needs of EO child survivors and indirect victims?**
   - Yes: 6%
   - No: 56%
   - Don't know: 38%

2. **Are there inter-cluster efforts to coordinate and support awareness-raising activities to promote the participation and inclusion of child victims in social, cultural, political and other programs and policies?**
   - Yes: 43%
   - No: 26%
   - Don't know: 31%

3. **Is an intersectoral approach used systematically in policies and programs related to education, sports and cultural programs and policies (considering age, gender, disability, etc.)?**
   - Yes: 22%
   - No: 33%
   - Don't know: 44%

4. **Are there any good practices demonstrating collaboration (national or global level) between the CP/MA AoRs, Education Cluster and possibly other actors in the area of social inclusion?**
   - Yes: 30%
   - No: 20%
   - Don't know: 50%

---

Number of responses:

- **Prevention**: 49 responses
- **Social Inclusion**: 34, 35, 36 responses
- **Total responses**: 71
- **Countries answered yes**: 16
Integration of VA to the Response & Field Support

Integration of VA to the response

Are there inter-cluster efforts to ensure that the needs and rights of EO child survivors are effectively addressed?

- Yes 41%
- No 34%
- Don’t know 24%

Number of responses 41

Does the humanitarian response plan (HRP) addresses the rights and needs of EO child survivors and children at risk?

- Yes 61%
- No 24%
- Don’t know 15%

Number of responses 41

Is there a designated focal point (field or global) responsible to follow up the integration of assistance for EO child victims into the overall humanitarian response?

- Yes 38%
- No 30%
- Don’t know 33%

Number of responses 47

Are there any good practices demonstrating collaboration (global or national level) between the CP/MA AoRs and possibly other actors that collectively address the needs of EO child survivors?

- Yes 38%
- No 30%
- Don’t know 33%

Number of responses 40

Field Support

Has field support been requested for any of the above issues to strengthen the intervention?

- Yes 24%
- No 45%
- Don’t know 30%

Number of responses 33

Was support received?

- Yes 10%
- No 30%
- Don’t know 60%

Number of responses 30
