Content

1. Application process
2. Project priorities, activities and results
3. Reporting
4. Best practices and lessons learned
Application process — Project proposal

- HCT decides on the prioritization strategy (HNO)
- Clusters and subclusters recommend areas and projects (HRP)
- Agencies prepare proposals and RC/HC submits to CERF
- Feedback and comments from CERF
- Approval

- Consultation with NGOs working in prioritized areas
- Ensure that all activities adhere to the CERF Life-Saving Criteria
- Clearly describe all activities to be implemented
- Consider CFP and GSA preparation and signature when planning
- Accountability to Affected People
## Project priorities, activities and results

1. Intervention in all 4 prioritized regions
2. Emergency EORE and VA (4 grants awarded to local NGOs)

3. 9 months – US$ 800,000
Reporting

1. Intermediate report - 4 months after approval
   - **Estimated** Expenditure
   - Implementation **status**
   - **Challenges** that may delay or affect implementation and corrective actions to be/being implemented.

2. Final report
   - Project Results Summary/Overall **Performance**
   - **Challenges** & changes
   - **Beneficiaries** (planned vs reached)
   - **Results** achieved
   - **Accountability** to affected people
   - Complaint **mechanisms**

3. Human interest/success story
Best practices & lessons learned

• Coordination/ complementarity with other agencies to avoid duplication

• Consultation with MA AoR members essential to identify implementation areas, beneficiaries, and budget

• Security issues in areas where emergency response is required may delay implementation

• Close monitoring to ensure that targets are met within budget and schedule

• Promote knowledge sharing between implementing partners.
